

How you're doing matters. Answer the call!

The 2021 Wellbeing Survey is happening now!

Survey takers from Siena College Research Institute will be calling the mobile phones of Valley residents.

Help address the needs and opportunities in the Valley by sharing information about your wellbeing, happiness, and neighborhood-level quality of life.

Questions will include:

- How has the COVID-19 pandemic impacted your health and financial well-being?
- Are the parks in your neighborhood in good condition?
- What has been your experience with telehealth appointments over the past year?
- What is your life like today and what do you think it will be like in five years?
